

Procurement Notice

Country of project	Republic of Cabo Verde
Title	Independent Storage Provider for a 8MVA/8MWh Battery Energy Storage System in Lazaretto, São Vicente Island, and a 6MVA/6MWh Battery Energy Storage System in Parcela, Boa Vista Island
Business Sector	Energy Sector
Bid No.	BESS-8MVA/8MWh-SV1 BESS-6MVA/6MWh-BV1

The Government of Cabo Verde, represented by National Directorate of Industry, Trade and Energy, announces the intent to launch a competitive procurement process for an Independent Storage Provider for a 8MVA/8MWh Battery Energy Storage System (BESS) in Lazaretto, São Vicente Island, and a 6MVA/6MWh Battery Energy Storage System in Parcela, Boa Vista Island. The procurement process is expected to proceed in two phases: a prequalification phase (request for expression of interest or REOI) and a request for proposals phase for prequalified applicants.

The subject of procurement notice is to launch an international open competitive bidding process mobilizing private sector developers, to design, engineer, finance, construct, commission, own, operate and maintain a 8MVA/8MWh and 6MVA/6MWh Battery Energy Storage System as Independent Storage Provider under a BOO (Build, Own, Operate) scheme on São Vicente and Boa Vista Island, Cabo Verde, respectively.

The REOI will be published by the end of May 2023 and will be announced on the following website www.energiasrenovaveis.cv
